- 7> What was the original name for Coca-Cola?
- 8> When was Coca-Cola first sold in cans?
- 9> Approximately, how long does it take to sell a billion gallons of Coca-Cola worldwide?
- 10> How can you reduce the spray from a shaken can of soda?

Answers:

- 1> Dr Pepper - Charles Alderton, a pharmacist, invented Dr. Pepper.
- 2> Coca-Cola - Pemberton was a morphine addict. His son Charley died from a morphine overdose.
- 3> Shoot a Waco - Customers began ordering it by asking the soda jerk to 'shoot them a waco'.
- 4> Coca-Cola - The two main ingredients in it used to be coca leaf and cola nut, hence, Coca-Cola.
- 5> Coca-Cola - A 1979 commercial with a kid offering Mean Joe Green his coke was the inspiration.
- 6> A coca bean - Coca-bean extract, a main ingredient, was replaced by caffeine in 1903
- 7> 'Coca-Cola Elixir and Syrup' - Pemberton sought to combine the ultimate medicine and perfect drink in one.
- 8> 1955 - In 1955, flat-topped all steel Coca-Cola cans were produced for overseas U.S. military.
- 9> Seven months - Coke is the most popular soda in all countries except Scotland and Quebec, Canada.
- 10> You can't - Tapping a can does nothing. It's just something to do while waiting for it to settle.
