

# WHAT ANIMAL AM I QUIZ

( [www.TriviaChamp.com](http://www.TriviaChamp.com) )

- 1> Most of my relatives hibernate, I do not. Am I a male polar bear, female grizzly bear or male black bear?
- 2> Most teeth stop growing but mine do not. Am I a cat, rabbit or wombat?
- 3> I am an insectivore. Am I a greater moon rat, sloth bear or echidna?
- 4> My main food is eucalyptus leaves. Am I a tree kangaroo, koala bear or spotted cuscus?
- 5> I am known for killing snakes. Am I a mongoose, genet or hyena?
- 6> I am the only cat that does not have retractable claws. Am I a jaguar, panther or cheetah?
- 7> My coat changes colours from winter to summer. Am I a stoat, seal or bear?
- 8> I am a member of the weasel and otter family that lives in trees. Am I a polecat, skunk or sable martin?
- 9> I have five toes and a modified thumb. Am I a panda, coati or kinkajou?
- 10> I am among of the few venomous mammals. Am I a mongoose, Tasmanian devil or platypus?

## Answers:

- 1> Male polar bear - The polar bear is the largest bear in the world.
- 2> Rabbit - Most species of rabbits live in a burrow.
- 3> Greater moon rat - Greater moon rats come from Southeast Asia.
- 4> Koala bear - Koalas are native to Australia.
- 5> Mongoose - Mongooses have a greater immunity to poison than most other animals.
- 6> Cheetah - Cheetah's are also the fastest cat.

- 7> Stoat - A stoat with a white coat is better known as an ermine.
- 8> Sable martin - Martin's main food is squirrels and young birds.
- 9> Panda - Panda's tend to eat bamboo roots.
- 10> Platypus - The venom gland is connected to a spur on the back of the platypuses ankle.
