

ANIMALS TRIVIA QUIZ

(www.TriviaChamp.com)

- 1> What is a group of whales called?
- 2> Why don't spiders get caught in their own webs?
- 3> What percent of animals that have previously lived on the earth are now extinct?
- 4> Which of these factors determines the gender of an alligator - Temperature, the Father or there is no factor, it is a surprise?
- 5> What shape are a goats pupils?
- 6> Which of these may shatter when dropped - A beetle, a fly or a tarantula?
- 7> Which of these is the most poisonous - A poison dart frog, a viper or a tarantula?
- 8> Which of these cats is the biggest in the world - A lion, a jaguar or a tiger?
- 9> How many glasses of milk can one cow produce in its lifetime?
- 10> Which of these has blue blood? Lobsters, Monkeys or Mosquitoes?

Answers:

- 1> A pod - A group of whales is called a pod. A pod can range from 3 to over 100 whales!
- 2> They have oily legs - They have self oiling legs. The oil keeps them from sticking to their own webs, though it will not necessarily keep them from getting stuck in another spiders web.
- 3> over 90 percent - Many of the animals/ creatures became extinct before man was even on the earth.
- 4> Temperature - Temperature is the main factor in determining the gender. When the alligator eggs are incubated at around 80 degrees, the gator is a

female. When the eggs are incubated around 90 degrees, the gator is male.

5> Rectangular - A goats pupils are rectangular. This allows for better night vision and it also helps the goats to see almost the whole way around without even moving its head.

6> A tarantula - The correct answer is a tarantula. Since its exoskeleton is on the outside, when the spider is dropped , it can shatter and die.

7> A poison dart frog - A poison dart frog is the most poisonous animal in the world. They are bright colored to warn predators of their poison.

8> A tiger - A tiger is the biggest cat in the world. They can be over 9 feet long and weigh over 500 pounds!

9> Over 200,000 - The answer is over 200,000! Cows must have a calf to produce milk!

10> Lobsters - The answer is lobsters! Monkeys have reddish blood, much like humans and mosquitos have yellowish blood!
