## Answers:

- 1> Zymurgy - Fermentation is defined as being the conversion of sugar to alcohol and carbon dioxide.
- 2> Weihenstephan - Weihenstephan can trace its origins back to the year 1040. There are two other companies, which are vying for this title, the Weltenburg Abbey and The Zatec brewery.
- 3> Mexico - Corona is often served with a lime. This brand of beer is available in more than 170 different countries.
- 4> Bock - This type of beer is normally brewed in the fall and is ready in time for spring. It is traditionally a strong dark beer.
- 5> Wort - Wort is a liquid. The wort contains the sugars that will ferment into alcohol.
- 6> 16 billion liters - This figure includes all companies and brands produced by Heineken.
- 7> A Rathskeller - This is a German word, which is used to denote a tavern below street level.
- 8> 3rd - Beer is the most popular alcoholic beverage. It ranks after water and tea.
- 9> Ancient Egypt - There is speculation that you can date beer back to about 9500BC. However, it is fact that it can be dated to both ancient Egypt and Mesopotamia.
- 10> United States - As of 2006, the global revenue from beer sales was over 290 billion dollars.
- 11> Czechoslovakia - Pilsner was first brewed in 1842 in Plzen, Czechoslovakia.
- 12> Germany - This law was implemented to standardize brewing.
- 13> 1516 - This law is often called the Bavarian Purity Law.
- 14> Water, barley and hops - Yeast is an essential part of brewing, but it was not included on the list. When the list was made, the list makers did not realize that yeast must be added to make beer.
- 15> Bigfoot - The Sasquatch is often found on the label. You have to search carefully to find him.
