Answers:

- 1> Orchids - There are over 100,000 different hybrids and cultivated varieties of orchids.
- 2> Honey - Honey is the only food that will never spoil. Still water (in a glass) can grow mold as can peanut butter.
- 3> Berries - Each pineapple plant produces just one pineapple per year!
- 4> 91 percent - Because of the high content of vitamin E, cabbage is renowned for the skin!
- 5> The white part of an egg - Eggs come in all kinds of different colors including white, brown, blue, reddish- brown, and even greenish blue!
- 6> Have seeds on the outside - They, along with apples, whiten teeth, and many fruits come from flowering plants!
- 7> Shredded Wheat - Did you know that Americans eat an average of 160 bowls of cereal per year?
- 8> Wintergreen - Did you know that the flavor of bubblegum is actually made up of Cinnamon, Vanilla and Wintergreen? It was first invented in 1906.
- 9> Coconut Water - Coconut water is sterile and has an ideal pH level.
- 10> About 350 - Did you know that Wisconsin and California account for more than 1/3 of total U.S. milk production?
