## Answers:

1> Montana - The Appalachian Mountains extend all the way from Alabama to Canada! That's about 1500 miles!

2> North Dakota - The Missouri River is over 2300 miles long. It flows through North Dakota, South Dakota, Montana, Nebraska, Iowa, Kansas, and Missouri!

3> Lake Superior - Lake Superior is not only huge, but it is also deep! The maximum depth is over 1330 feet!

4> Louisiana - Texas and New Mexico border Mexico along with California and Arizona!

5> New York - Did you know that you can go to either side of Niagara Falls? One side is in Canada, the other in New York!

6> Wyoming - The highest point of the Rockies is Mt. Elbert. It stands at 14,433 Ft tall!

7> Erie - Lake Erie is the shallowest of all the great lakes. Did you know that the name Erie was the name of a Native American Indian tribe that lived along the shore of the lake?

8> Arizona - The Snake River is the largest tributary of the Columbia River. The Columbia River is the largest North American river that empties into the Pacific Ocean!

9> Alaska - Did you know that 1/3 of Alaska lies within the Arctic Circle?

10> Rhode Island - Rhode Island was the last of the original thirteen colonies to become a state!
